

NOBAMED Paul Danz AG

NOBAZELLTUPF®

REF 208405

Product Description and Purpose

The cellulose swab roll is provided with perforations, which allow an easy taking of the swabs. Each swab has a size of 4.0 cm x 5.0 cm.

The swabs are suited for the preparation of simple punctures with low risks, for example vein punctures for blood sampling. Prior to the above activity, the product must be sterilized using a validated procedure (ethylene oxide, radiation, moist heat at 121°C)

Contraindications

Not to be used in case of a known allergy against the component listed below.

Composition

Cellulose

Normative and Legal Requirements

The cellulose swab roll is a medical product according to the MDD 93/42/EEC and the MDR (EU) 2017/745 and is classified as class I, rule 4.

The product does not contain dangerous toxic substances according to REACH.

It has CE marking and DIN EN ISO 15223-1 labels on all its packaging.

Packaging

Primary packaging:	PE bag
Secondary packaging:	carton made of cellulose

Storage

To be stored in a dry and dust-free environment

The product bears following labels and symbols:

Sterilize before use
